Pharma 2

Personalized medicine

Tuesday, October 13, 2015

11.00 - 12.30

Speaker:

Adrian Looney

(USA)

Curriculum Vitae

Adrian Looney

Adrian Looney leads a team of patent attorneys and professional staffers who provide IP support for Pfizer's oncology franchise spanning discovery, development and commercialization of novel small molecule and biologic drugs. Adrian is also responsible for Pfizer's patent department in Japan and the Loss of Exclusivity Practice Group. Adrian has worked on the development of Pfizer's IP approach for companion diagnostics used in precision medicine. Adrian also provides global support for Pfizer's IP policy initiatives.

Prior to joining Pfizer Adrian worked at two New York based intellectual property law firms where his practice focused on patent matters for biopharmaceutical and pharmaceutical clients. Adrian received his law degree from New York Law School, a M.A., M.Phil., Ph.D. in Chemistry from Columbia University and a B. Sc. degree in Chemistry from University College Cork, Ireland.
